Preface

This is the first edition of CSA TS-604, *Guidelines for Enhanced Train Control Interoperability*.

This Technical Specification is not a Standard, and it has not been formally reviewed or approved by a CSA Technical Committee.

CSA Group acknowledges that the development of this Technical Specification was made possible, in part, by the financial support of the Standards Council of Canada (SCC) and Transport Canada.

This Technical Specification was prepared by the Working Group on TS-604 and has been reviewed by external subject matter experts as part of the public review process.

Notes:

- 1) *Use of the singular does not exclude the plural (and vice versa) when the sense allows.*
- 2) *Although the intended primary application of this Technical Specification is stated in its Scope, it is important to note that it remains the responsibility of the users of the Technical Specification to judge its suitability for their particular purpose.*
- 3) *All inquiries regarding this Technical Specification should be sent to inquiries@csagroup.org.*
