DISCLAIMER

IES publications are developed through the consensus standards development process approved by the American National Standards Institute. This process brings together volunteers representing varied viewpoints and interests to achieve consensus on lighting recommendations. While the IES administers the process and establishes policies and procedures to promote fairness in the development of consensus, it makes no guaranty or warranty as to the accuracy or completeness of any information published herein. The IES disclaims liability for any injury to persons or property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document.

In issuing and making this document available, the IES is not undertaking to render professional or other services for or on behalf of any person or entity. Nor is the IES undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances.

The IES has no power, nor does it undertake, to police or enforce compliance with the contents of this document. Nor does the IES list, certify, test or inspect products, designs, or installations for compliance with this document. Any certification or statement of compliance with the requirements of this document shall not be attributable to the IES and is solely the responsibility of the certifier or maker of the statement.

This document is based in part on the results of a report provided to the Illuminating Engineering Society of North America by the Lighting Research Center, Rensselaer Polytechnic Institute, Troy, New York, under a research agreement in response to a request for proposal. LRC principal investigators were Michele W. McColgan Ph. D., John D. Bullough Ph. D., John Van Derlofske Ph. D., and Mark S. Rea Ph.D.

Special thanks to Acuity Brands Lighting for their contribution to the graphics in this publication.

CONTENTS

1.0 Foreword	1
2.0 Introduction	1
3.0 Background on Outdoor Luminaire Classifications	1
4.0 Luminaire Classification System (LCS)	2
4.1 Intended Use	2
4.2 Solid Angle References	3
4.3 Forward Light	3
4.4 Back Light	3
4.5 Uplight	4
5.0 Application Examples of the Luminaire Classification System	4
5.1 “Shoebox” Type Luminaires	5
5.2 Decorative Street Lighting	6
5.3 Roadway Luminaires	7
6.0 Summary	8
References	8
Glossary	9
Addendum	12
