

J-STD-102.a

**SUPPLEMENT A TO J-STD-102, *JOINT ATIS/TIA CMAS FEDERAL ALERT
GATEWAY TO CMSP GATEWAY INTERFACE TEST SPECIFICATION***

JOINT STANDARD

As a leading technology and solutions development organization, ATIS brings together the top global ICT companies to advance the industry's most-pressing business priorities. Through ATIS committees and forums, nearly 200 companies address cloud services, device solutions, emergency services, M2M communications, cyber security, ehealth, network evolution, quality of service, billing support, operations, and more. These priorities follow a fast-track development lifecycle — from design and innovation through solutions that include standards, specifications, requirements, business use cases, software toolkits, and interoperability testing.

ATIS is accredited by the American National Standards Institute (ANSI). ATIS is the North American Organizational Partner for the 3rd Generation Partnership Project (3GPP), a founding Partner of oneM2M, a member and major U.S. contributor to the International Telecommunication Union (ITU) Radio and Telecommunications sectors, and a member of the Inter-American Telecommunication Commission (CITEL). For more information, visit < www.atis.org >.

The Telecommunications Industry Association (TIA) is the leading trade association representing the global information and communications technology (ICT) industries through standards development, government affairs, business opportunities, market intelligence, certification and world-wide environmental regulatory compliance. With support from its 600 members, TIA enhances the business environment for companies involved in telecommunications, broadband, mobile wireless, information technology, networks, cable, satellite, unified communications, emergency communications and the greening of technology. TIA is accredited by ANSI.

Notice of Disclaimer & Limitation of Liability

The information provided in this document is directed solely to professionals who have the appropriate degree of experience to understand and interpret its contents in accordance with generally accepted engineering or other professional standards and applicable regulations. No recommendation as to products or vendors is made or should be implied.

NO REPRESENTATION OR WARRANTY IS MADE THAT THE INFORMATION IS TECHNICALLY ACCURATE OR SUFFICIENT OR CONFORMS TO ANY STATUTE, GOVERNMENTAL RULE OR REGULATION, AND FURTHER, NO REPRESENTATION OR WARRANTY IS MADE OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR AGAINST INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS. ATIS SHALL NOT BE LIABLE, BEYOND THE AMOUNT OF ANY SUM RECEIVED IN PAYMENT BY ATIS FOR THIS DOCUMENT, WITH RESPECT TO ANY CLAIM, AND IN NO EVENT SHALL ATIS BE LIABLE FOR LOST PROFITS OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES. ATIS EXPRESSLY ADVISES ANY AND ALL USE OF OR RELIANCE UPON THIS INFORMATION PROVIDED IN THIS DOCUMENT IS AT THE RISK OF THE USER.

NOTE - The user's attention is called to the possibility that compliance with this standard may require use of an invention covered by patent rights. By publication of this standard, no position is taken with respect to whether use of an invention covered by patent rights will be required, and if any such use is required no position is taken regarding the validity of this claim or any patent rights in connection therewith. Please refer to [<http://www.atis.org/legal/patentinfo.asp>] to determine if any statement has been filed by a patent holder indicating a willingness to grant a license either without compensation or on reasonable and non-discriminatory terms and conditions to applicants desiring to obtain a license.

J-STD-102.a, *Supplement A to J-STD-102, Joint ATIS/TIA CMAS Federal Alert Gateway to CMSP Gateway Interface Test Specification*

Is an ATIS & TIA Joint Standard developed by the **ATIS WTSC-G3GSN Subcommittee** under the **ATIS Wireless Technologies and Systems Committee (WTSC)** and the **TIA TR-45.8 Subcommittee** under the **TIA Engineering Committee TR-45**.

**Supplement A to *J-STD-102, Joint ATIS/TIA CMAS Federal
Alert Gateway to CMSP Gateway Interface Test
Specification***

Alliance for Telecommunications Industry Solutions

Approved December 2012

Abstract

This Supplement provides the errata and clarifications to J-STD-102, *Joint ATIS/TIA CMAS Federal Alert Gateway to CMSP Gateway Interface Test Specification*.

Foreword

As a leading technology and solutions development organization, the Alliance for Telecommunication Industry Solutions (ATIS) brings together the top global information and communications technology (ICT) companies to advance the industry's most-pressing business priorities. ATIS serves the public through improved understanding between service providers, customers, and manufacturers. The Wireless Technologies and Systems Committee (WTSC) develops and recommends standards and technical reports related to wireless and/or mobile services and systems, including service descriptions and wireless technologies. WTSC develops and recommends positions on related subjects under consideration in other North American, regional, and international standards bodies.

The Telecommunications Industry Association (TIA) is the leading trade association representing the global information and communications technology (ICT) industries through standards development, government affairs, business opportunities, market intelligence, certification and world-wide environmental regulatory compliance. Engineering Committee TR-45 develops performance, compatibility, interoperability and service standards for mobile and personal communications systems. These standards pertain to, but are not restricted to, service information, wireless terminal equipment, wireless base station equipment, wireless switching office equipment, ancillary apparatus, auxiliary applications, inter-network and intersystem operations, interfaces, and wireless packet data technologies.

Suggestions for improvement of this document are welcome. They should be sent to the Alliance for Telecommunications Industry Solutions, WTSC, 1200 G Street NW, Suite 500, Washington, DC 20005.

The mandatory requirements are designated by the word *shall* and recommendations by the word *should*. Where both a mandatory requirement and a recommendation are specified for the same criterion, the recommendation represents a goal currently identifiable as having distinct compatibility or performance advantages. The word *may* denotes a optional capability that could augment the standard. The standard is fully functional without the incorporation of this optional capability.

The ATIS WTSC-G3GSN Subcommittee and the TIA TR-45.8 Subcommittee were responsible for the development of this document.

Table of Contents

1	SCOPE & PURPOSE	1
2	MODIFICATIONS	1
2.1	MODIFICATION TO CLAUSE 1.2, PURPOSE	1
2.2	MODIFICATIONS TO CLAUSE 4.1, TEST ENVIRONMENT ARCHITECTURE	1
2.3	MODIFICATION TO CLAUSE 5.3.3, CMAS-TC-003 – UPDATE MESSAGE TEST	3
2.4	MODIFICATIONS TO CLAUSE 5.3.7, CMAS-TC-007 – TRANSMISSION CONTROL TEST.....	3
2.5	MODIFICATIONS TO CLAUSE 5.3.10 CMAS-TC-010 – GEO-LOCATION FILTERING TEST	5
2.6	MODIFICATION TO ANNEX A, SUMMARY OF REFERENCE POINT “C” INTERFACE REQUIREMENTS	6
3	ADDITIONS.....	7
3.1	ADDITIONS TO CLAUSE 2, NORMATIVE REFERENCES	7
3.2	ADDITION TO CLAUSE 3.2, ACRONYM & ABBREVIATIONS	7
