# Preface

This is the first edition of CSA TS-802, *Electric vehicle infrastructure deployment guidance*.

This Technical Specification (referred to as “this Document” from here on) is not a consensus product; that is, it is not a standard and it has not been formally reviewed or approved by a CSA Technical Committee.

This Document contains recommended procedures and steps by the Working Group on EV Infrastructure Deployment Guidance for the deployment of electric vehicle charging infrastructure, and it has been reviewed by external subject matter experts as part of the public review process.

CSA Group acknowledges that the development of this Document was made possible, in part, by the financial support of Ontario Ministry of Economic Development, Job Creation, and Trade.

**Notes:**

- 1) *Use of the singular does not exclude the plural (and vice versa) when the sense allows.*
- 2) *Although the intended primary application of this Document is stated in its Scope, it is important to note that it remains the responsibility of the users of the Document to judge its suitability for their particular purpose.*
- 3) *To submit a proposal for change, please send the following information to [inquiries@csagroup.org](mailto:inquiries@csagroup.org) and include “Proposal for change” in the subject line:*
  - a) *TS designation (number);*
  - b) *relevant clause, table, and/or figure number;*
  - c) *wording of the proposed change; and*
  - d) *rationale for the change.*
